Article 25: To see if the Town will vote to replace Section 41.4: Driveways in the Protective Zoning Bylaws with the following new Section 41.4: Driveways, or take any other action thereto:

(Sections of the current bylaw to be deleted are shown as strikethroughs and replacement language shown as underscored.)

41.4: Driveways

All driveways shall be designed according to requirements listed below. Driveways serving ~~three~~ two or more lots have additional requirements (see Common Driveways, Section 41.5).

~~(a) at its intersection with the traveled surface of a public way, at least the first 20 feet in length constructed with a minimum curb cut of 20 feet, a maximum slope of 8 percent, and driveway should have crown or slope to direct water away from the public way, and a culvert where applicable.~~

(a) at its intersection with the traveled surface of a public way, there shall be a minimum curb-cut of 20 feet. The first 25 feet in length constructed from the roadway shall have a maximum slope of 8 percent, and the driveway shall be at least 10 feet wide over the rest of its length. The driveway shall have a crown and slope to direct water away from the public way, and a culvert(s) where applicable.

(b) A line-of-sight of sufficient distance to permit safe entering onto the travel portion of public way, calculated per AASHTO (American Association of State Highway and Transportation Officials) and

MUTCO (Manual on Uniform Traffic Control Devices) as supplied by the Highway Superintendent, and available at the Town Office.

(c) The approval and signature of the Highway Superintendent on the building permit application, indicating that the driveway meets the above standards before a building permit can be issued.

41.5: Common Driveways

The purposes of this Bylaw are to provide for the safety, welfare, and convenience of town residents and to encourage appropriate land use.

41.5-1: Definitions and Exceptions

A common driveway is a driveway which begins at a public way and provides access to more than one building lot. ~~Common driveways providing access to two building lots are permitted by right and are not subject to this Bylaw.~~ Common driveways, which are to be constructed, extended or utilized to provide access to ~~three~~ two or more building lots are required to conform to the Common Driveway Bylaw.

The Common Driveway Bylaw shall not apply when both the common driveways and the building lots to which they provide access existed prior to March 11, 1993. The common driveway bylaw shall not apply to common driveways shown on a plan recorded at the Franklin County Registry of Deeds prior to March 11, 1993. The specific right to use a discontinued road as a common driveway is not intended or implied by any portion of this bylaw.

41.5-2: Design and Performance Requirements

A common driveway shall have:

- (a) A minimum right-of-way width of 30 feet and a maximum gradient of 12%. For short sections, at steeper gradients, variances may be granted by the Zoning Board of Appeals. This paragraph shall not apply to rights-of-way existing prior to March 11, 1993;
- (b) A stable sub-base of at least 18 inches of gravel, a minimum wear surface of crushed stone or trap rock applied to a minimum depth of 4 inches, a minimum width of 12 feet, a minimum centerline radius of 75 feet and a minimum of 3 feet of total shoulder;
- (c) If the driveway is a dead-end, a “hammerhead” or other turnaround adequate for a 30 foot vehicle;
- (d) A curb cut of at least 20 feet in width, with a minimum radius of four feet, and an approach area of at least 20 feet in length from the edge of traveled surface of the public way with a slope of not more than 4% grade. This paragraph shall not apply to rights-of-way existing prior to March 11, 1993;
- (e) A “pullout” every 500 feet for a 30 foot vehicle;
- (f) Such storm drains, swales, culverts and drainage retention areas as are necessary to permit the unimpeded flow of all natural water courses, to ~~insure~~ ensure drainage of the driveway, to prevent washout and erosion and to intercept all storm water drainage created by the construction of the common

driveway adequate to meet a 25 year frequency storm. All Wetlands Protection Act requirements must be met;

(g) A line-of-sight of sufficient distance to permit safe entering onto the travel portion of public way, calculated per AASHTO (American Association of State Highway and Transportation Officials) and MUTCO (Manual on Uniform Traffic Control Devices) as supplied by the Highway Superintendent, and available at the Town Office.

(h) A proposed name for the common driveway(s), subject to Planning Board approval.

(i) Common driveways serving no more than two building lots may seek waivers or reductions to the above construction standards through the site plan review process by the Planning Board under Section 64. Such waivers shall be justified by site characteristics, the development proposal, or proposed design features.

41.5-3: Maintenance

Maintenance of such a driveway shall be assured through a covenant, landowner's association or similar legal agreement, approved by the Planning Board and binding upon those served by the driveway, which shall require the landowners to maintain the driveway to the standards of this Bylaw at their mutual, exclusive expense. Such covenant or association agreement shall further state, as a condition of Planning Board approval, that the driveway in question is not a private road or public road and that it is intended to remain in perpetuity as a common private driveway. A statement to this effect shall be shown on all design plans submitted to the Planning Board and included in the language used to convey lots served by the common driveway.

41.5-4: Compliance

No building permit shall be issued for any lot(s) to be served by a common driveway providing access to ~~three~~ two or more building lots until an as-built plan, prepared by a Registered Massachusetts Civil Engineer, Landscape Architect, Architect, and/or Land Surveyor, and demonstrating compliance with 41.4 for the lot(s) for which building permits are sought, has been submitted to and approved by the Planning Board or its agent. All as-built plans shall show a statement certifying that the common driveway meets the requirements of the common driveway bylaw. A turnaround meeting the requirements of 41.5-2(c) shall be provided during construction at a temporary terminus of any common driveway providing access to ~~three~~ two or more building lots.
