NEW BUSINESS:

General Discussion

Capital recommendations included a dump truck which can be the recycled ambulance again when the town has to purchase a new one. A new chipper, the chipper box and a new vehicle for the Highway Department were discussed. It was pointed out the Ron Sweet and his crew were able to do some work themselves on the new highway facility. This will save the town over \$400,000 on the estimated cost. It is hoped that some of this savings can be allocated to the expense of new equipment. It was also noted that new equipment is preferred for these expenditures. Used equipment requires more maintenance which is a budget cost and a time cost because the highway crew must work on vehicles instead of other duties throughout the town.
