Building Permits/Site Visits/Inquiries

- **Inquiries**
Request for guidance on next steps with regard to developing the hay field past 10 Pine Hill Road. Wetland swale has been delineated and a septic system is being designed for the site with the wetland in mind. The initial surveys show the septic system and approximate house footprint to be between 50 and 100 feet of the wetland. The farm road/driveway seems to lie just outside the 100-foot line.
