

**Minutes**  
HIGHWAY GARAGE/FACILITY COMMITTEE  
Tuesday, July 7, 2019, at 5:00 PM  
Town Hall

*Present:* Walter Goodridge, chair, Ron Sweet, Peter Jeswald, Hank Horstman

*Others present:* David Vreeland

Walter called the meeting to order at 5:05 p.m.

*Minutes*

Peter made a motion to approve the minutes of June 6, 2019.

Ron seconded, and it passed unanimously.

*New Business*

Ron lead-off the discussion by explaining that as a result of organizing and clearing the site, he and Dave feel that it may be possible to site the storage building to the East of the location shown in the 2014 plans. This could save money by reducing the need for blasting, but would require some fill. It would provide easier truck access to the storage building. It would ease access to the trail which continues North through the property. He and Dave will explore this possibility further, and prepare for a discussion at the Selectboard Meeting scheduled for July 22.

All members present and Dave are in favor of specifying a thickened-edge slab (Alaskan slab) on crushed stone for the foundation.

The next meeting is planned for July 16 at 5:00 in the Town Hall.

At 5:55, Peter moved to adjourn. Ron seconded the motion, which passed unanimously.
