Form 9A – Application for Local Upgrade Approval

DEP has provided this form for use by local Boards of Health. Other forms may be used, but the information must be substantially the same as that provided here. Before using this form, check with your local Board of Health to determine the form they use.

Form 9A is to be submitted to the Local Board of Health for the upgrade of a failed or nonconforming septic system with a design flow of less than 10,000 gpd, where full compliance, as defined in 310 CMR 15.404(1), is not feasible.

System upgrades that cannot be performed in accordance with 310 CMR 15.404 and 15.405, or in full compliance with the requirements of 310 CMR 15.000, require a variance pursuant to 310 CMR 15.410 through 15.415.

NOTE: Local upgrade approval shall not be granted for an upgrade proposal that includes the addition of a new design flow to a cesspool or privy, or the addition of a new design flow above the existing approved capacity of an on-site system constructed in accordance with either the 1978 Code or 310 CMR 15.000.

A. Facility Information

Important: When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.

1. Facility Name and Address:

Name

Street Address

City/Town State Zip Code

2. Owner Name and Address (if different from above):

Name Street Address

City/Town State

Zip Code Telephone Number

3. Type of Facility (check all that apply):

- Residential Institutional Commercial School

4. Describe Facility:

5. Type of Existing System:

- Privy Cesspool(s) Conventional Other (describe below):

6. Type of soil absorption system (trenches, chambers, leach field, pits, etc):

Form 9A – Application for Local Upgrade Approval

DEP has provided this form for use by local Boards of Health. Other forms may be used, but the information must be substantially the same as that provided here. Before using this form, check with your local Board of Health to determine the form they use.

A. Facility Information (continued)

7. Design Flow per 310 CMR 15.203:

Design flow of existing system: _____ gpd

Design flow of proposed upgraded system _____ gpd

Design flow of facility: _____ gpd

B. Proposed Upgrade of System

1. Proposed upgrade is (check one):

Voluntary Required by order, letter, etc. (attach copy)

Required following inspection pursuant to 310 CMR 15.301: _____ date of inspection

2. Describe the proposed upgrade to the system:

3. Local Upgrade Approval is requested for (check all that apply):

Reduction in setback(s) – describe reductions:

Reduction in SAS area of up to 25%: _____ SAS size, sq. ft. _____ % reduction

Reduction in separation between the SAS and high groundwater:

Separation reduction _____ ft.

Percolation rate _____ min./inch

Depth to groundwater _____ ft.

Form 9A – Application for Local Upgrade Approval

DEP has provided this form for use by local Boards of Health. Other forms may be used, but the information must be substantially the same as that provided here. Before using this form, check with your local Board of Health to determine the form they use.

B. Proposed Upgrade of System (continued)

Relocation of water supply well (explain):

Three horizontal lines for text entry.

Reduction of 12-inch separation between inlet and outlet tees and high groundwater

Use of only one deep hole in proposed disposal area

Use of a sieve analysis as a substitute for a perc test

Other requirements of 310 CMR 15.000 that cannot be met – describe and specify sections of the Code:

Three horizontal lines for text entry.

If the proposed upgrade involves a reduction in the required separation between the bottom of the soil absorption system and the high groundwater elevation, an Approved Soil Evaluator must determine the high groundwater elevation pursuant to 310 CMR 15.405(1)(h)(1). The soil evaluator must be a member or agent of the local approving authority.

High groundwater evaluation determined by:

Three horizontal lines for evaluator name, signature, and date.

C. Explanation

Explain why full compliance, as defined in 310 CMR 15.404(1), is not feasible. (Each section must be completed)

1. An upgraded system in full compliance with 310 CMR 15.000 is not feasible:

Two horizontal lines for text entry.

2. An alternative system approved pursuant to 310 CMR 15.283 to 15.288 is not feasible:

Two horizontal lines for text entry.

Form 9A – Application for Local Upgrade Approval

DEP has provided this form for use by local Boards of Health. Other forms may be used, but the information must be substantially the same as that provided here. Before using this form, check with your local Board of Health to determine the form they use.

C. Explanation (continued)

3. A shared system is not feasible:

4. Connection to a public sewer is not feasible:

5. The Application for Local Upgrade Approval must be accompanied by all of the following (check the appropriate boxes):

Application for Disposal System Construction Permit

Complete plans and specifications

Site evaluation forms

A list of abutters affected by reduced setbacks to private water supply wells or property lines. Provide proof that affected abutters have been notified pursuant to 310 CMR 15.405(2).

Other (List):

D. Certification

“I, the facility owner, certify under penalty of law that this document and all attachments, to the best of my knowledge and belief, are true, accurate, and complete. I am aware that there may be significant consequences for submitting false information, including, but not limited to, penalties or fine and/or imprisonment for deliberate violations.”
