

Town Administrator Update, 10-12-21

- Most of last week was spent in the Public Contracting Overview class, the first of three classes required for the MCPPO (Massachusetts Certified Public Purchasing Official) Designation. I have passed that class and signed up for the second two, Design and Construction Contracting which will be held December 14th-17th and Supplies and Services Contracting, which is a self-paced course beginning February 14th, 2022.
