

June 15, 2026 Town Administrator Update

The week of June 1st was mostly spent preparing for Annual Town Meeting, and the following week on grants and reimbursement deadlines.

Boards, Committees & Departments

Parks & Recreation - We received two quotes, with only one under \$50,000 so the low bidder is Vermont Recreational Surfacing & Fencing at \$37,100 with optional resurfacing work at \$3,150.

Meetings

I had several MVP meetings as well as the MMA Energy & Environment Policy committee meeting and the Community Climate Advisory Council meeting. I also attended the FRCOG/Rural Policy Plan update session on Transportation, and made a big plug for more funding for micro-transit.
