

July 13, 2026 Town Administrator Update

I will be away this Friday the 17th and Monday the 20th

Boards, Committees & Departments

IT - I have placed the order for the town's Comcast accounts through the state ITT contract, which will save the town money while adding more bandwidth and an account for the new Public Safety Offices.

Transfer Station – there is a new volunteer sign-up app on the town website under the transfer station webpage, and an article coming out in the next Currents asking for more volunteers.

Meetings

We had an MVP 2.0 meeting of Town Administrators from Colrain, Charlemont and Ashfield to discuss the potential for combining forces for our seed projects.

Ribbon cutting events! We have two grand openings coming up – one for the new Conway Mall, and the other for the Public Safety Building. The mall we can set up as soon as we have a more complete volunteer base. I would suggest during the Festival of the Hills for the Public Safety Building ribbon cutting as everything should be well in place by then.
