

**Volunteers wanted for round two of removing invasive species from Fournier Property trail Saturday, December 3, 10am to noon**

The Fournier Property trail, located adjacent to the Conway Grammar School, needs care to allow for safe and enjoyable access from the school grounds. In November, we made some progress removing Asiatic Honeysuckle at the trail entry and there's more to do removing invasive, non-native plants. The Forest and Trails Committee is sponsoring a second invasive plant removal party on Saturday December 3<sup>th</sup> with a rain/snow date on December 4<sup>th</sup>. Guidance and a few tools will be available. You're invited to also bring your own tools (loppers, hand cutting tools, pruning saws, root saws, pry-bars, shovels, wheel barrows).

We will meet at Conway Grammar School in front of the playground area.

If you want to help please contact Cynthia at (413) 230-7185
